Renminbi Bond ETF (CHLC)

JUNE 30, 2014

Fund Description

The Market Vectors Renminbi Bond ETF seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of the Market Vectors Renminbi Bond Index. The Index is designed to track the performance of fixed-rate Chinese renminbi-denominated bonds, issued by Chinese and non-Chinese corporate, government, quasi-government or supranational issuers, that are available to market participants outside of mainland China.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Fund returns reflect dividends and capital gains distributions. Net asset value (NAV) per share is calculated by subtracting total liabilities from the total assets, then dividing by the number of shares outstanding. Share price is the last price at which shares were traded on the Fund's primary listing exchange. Fund shares may trade at, above or below NAV. Performance current to the most recent month end available by calling 888.MKT.VCTR or by visiting marketvectorsetfs.com.

Investing involves substantial risk and high volatility, including possible loss of principal. Bonds and bond funds will decrease in value as interest rates rise. An investor should consider the investment objective, risks, charges and expenses of the Fund carefully before investing. To obtain a prospectus and summary prospectus, which contains this and other information, call 888.MKT.VCTR or visit marketvectorsetfs.com. Please read the prospectus and summary prospectus carefully before investing.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called creation units and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

Investments in China-related securities are subject to elevated risks which include adverse market, political, regulatory, and geographic events affecting China and the surrounding region. Investments in mainland China and its offshore market in Hong Kong are subject to local customs, duties and rights of ownership, which might change at any time should policy makers deem them in China's best interest. As the Fund invests in securities denominated in Chinese renminbi, changes in currency exchange rates may negatively impact the Fund's return. The Fund may also be subject to financial sector risk, credit risk, interest rate risk, sovereign debt risk, and tax risk. Investors should be willing to accept a high degree of volatility and the potential of significant loss.

Market Vectors Renminbi Bond ETF (the "Index") is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Renminbi Bond ETF (the "Fund") is not sponsored, endorsed, sold or promoted by Market Vectors Index Solution GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.
