†Index data prior to March 18, 2013 reflects that of the Ardour Solar Energy Index (SOLRXT). From March 18, 2013, forward, the index data reflects that of the Fund's underlying index, Market Vectors Global Solar Energy Index (MVKWTTR). Index history which includes periods prior to March 18, 2013 reflects a blend of the performance of SOLRXT and MVKWTTR and is not intended for third party use.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Fund returns reflect dividends and capital gains distributions. Net asset value (NAV) per share is calculated by subtracting total liabilities from the total assets, then dividing by the number of shares outstanding. Share price is the last price at which shares were traded on the Fund's primary listing exchange. Performance current to the most recent month end is available by calling 888.MKT.VCTR or by visiting marketvectorsetfs.com. Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses. You cannot invest directly in an Index.

An investment in the Fund may be subject to risks which include, among others, competitive pressures, technological development and obsolescence of technology, short product cycles, uncertainty of solar energy adoption, commodity price volatility, import controls, availability of certain inputs and materials required for production, depletion of resources, higher relative volatility to companies in more established industries, unconventional valuation methods, and reductions to government subsidies, all of which may adversely affect the Fund. Investing in Chinese issuers involves risks which include, among others, lack of liquidity and price volatility, currency devaluations and exchange rate fluctuations, intervention by the Chinese government, nationalization or expropriation, limitations on the use of brokers, and trade limitations, all of which may adversely affect the Fund. Foreign and emerging markets investments are subject to risks, which include changes in economic and political conditions, foreign currency fluctuations, changes in foreign regulations, changes in currency exchange rates, unstable governments, and limited trading capacity which may make these investments volatile in price or difficult to trade. Small-, medium-, and micro-capitalization companies may be subject to elevated risks. The Fund's assets may be concentrated in a particular sector and may be subject to more risk than investments in a diverse group of sectors.

Market Vectors Global Solar Energy Index is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market. You will incur brokerage expenses when trading Fund shares in the secondary market. Past performance is no guarantee of future results. Returns for actual Fund investments may differ from what is shown because of differences in timing, the amount invested, and fees and expenses.

Investing involves substantial risk and high volatility, including possible loss of principal. Bonds and bond funds will decrease in value as interest rates rise. An investor should consider the investment objective, risks, charges and expenses of the Fund carefully before investing.
