## Fund Statistics<sup>2</sup>

Effective Duration (Years)	11.14
Average Years to Maturity	21.45

<sup>1</sup>30-Day SEC Yield is a standard calculation developed by the Securities and Exchange Commission that allows for fairer comparisons among bond funds. It is based on the most recent 30-day period. This yield figure reflects the interest earned during the period after deducting the fund's expenses for the period. Some statistics do not take into account fees and expenses associated with investments or the Fund. In the absence of temporary fee waivers, the 30-Day SEC Yield for 01/31/15 would have been 3.22% for Class A, 2.29% for Class C, 3.81% for Class I and 3.76% for Class Y of the Fund.

<sup>2</sup>Effective duration takes into account that expected cash flows will fluctuate as interest rates change. Average years to maturity is the average amount of time until the bonds mature.

<sup>3</sup>Composite Rating is an evenly weighted blend of a security's Moody's, S&P, Fitch, and DBRS ratings. Not Rated indicates that a security is rated by fewer than two of the four rating agencies. This composite is not intended to be a credit opinion.

Emerging markets hard currency bonds are bonds denominated in foreign currencies that are generally widely accepted around the world, such as the U.S. Dollar, Euro or Yen. Portfolio facts and statistics are shown for Class A shares only unless otherwise noted; other classes may have different characteristics. These are not recommendations to buy or sell any security. Weightings and holdings may vary.

Expenses: Class A: Gross 1.42%; Net 1.25% – Class C: Gross 2.59%; Net 1.95%; Class I: Gross 1.02%; Net 0.95% – Class Y: Gross 1.48%; Net 1.00%. Expenses are capped contractually until 05/01/15 at 1.25% for Class A, 1.95% for Class C, 0.95% for Class I and 1.00% for Class Y. Caps exclude certain expenses, such as interest.

The tables present past performance which is no guarantee of future results and which may be lower or higher than current performance. Returns reflect applicable fee waivers and/or expense reimburse. Had the Fund incurred all expenses and fees investment returns would have been reduced. Investment returns and Fund share values will fluctuate so that investor's shares, when redeemed, may be worth more or less than their original cost. Fund returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Index returns assume that dividends of the Index constituents in the Index have been reinvested. All indices are unmanaged and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the Fund. An index's performance is not illustrative of the Fund's performance. Indices are not securities in which investments can be made. The J.P. Morgan Government Bond Index-Emerging Markets Global Diversified (GBI-EM) Index tracks local currency bonds issued by emerging markets governments. The index spans over 15 countries. The EMBI Index tracks returns for actively traded external debt instruments in emerging markets, and is also J.P. Morgan's most liquid U.S.-dollar emerging markets debt benchmark.

You can lose money by investing in the Fund. Any investment in the Fund should be part of an overall investment program, not a complete program. The Fund is subject to risks associated with its investments in emerging market securities. Investing in foreign denominated and/or domiciled securities may involve heightened risk due to currency fluctuations, and economic and political risks, which may be enhanced in emerging markets. As the Fund may invest in securities denominated in foreign currencies and some of the income received by the Fund will be in foreign currency, changes in currency exchange rates may negatively impact the Fund's return. Derivatives may involve certain costs and risks such as liquidity, interest rate, market, credit, management and the risk that a position could not be closed when most advantageous. The Fund may also be subject to credit risk, interest rate risk, tax risk, non-diversification risk and risks associated with non-investment grade securities. Please see the prospectus and summary prospectus for information on these and other risk considerations.

Please call 800.826.2333 or visit [vaneck.com](http://vaneck.com) for a free prospectus or summary prospectus. An investor should consider the Fund's investment objective, risks, and charges and expenses carefully before investing. Bond and bond funds will decrease in value as interest rates rise. The prospectus and summary prospectus contain this and other information about the investment company. Please read it carefully before investing.
