

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

Global Gold UCITS (the "Sub-Fund")

a Sub-Fund of VanEck ICAV (the "ICAV")

Share Class: USD I1 Acc (ISIN: IE00BYXQSB98)

The management company of the Sub-Fund is VanEck Investments Limited.
VanEck Investments Limited is a subsidiary of Van Eck Associates Corporation.

Objectives and Investment Policy

The investment objective of VanEck – Global Gold UCITS is to achieve long term capital appreciation.

The Sub-Fund intends to realise its investment objective by investing substantially all of its assets into a no management fee bearing share class (the "**S Share Class**") of LO Funds – World Gold Expertise, sub-fund of Lombard Odier Funds being a Luxembourg regulated UCITS (hereinafter, the "**Master Fund**").

The Sub-Fund will at all times invest at least 85% of its assets in shares of the Master Fund. The Sub-Fund may hold up to 15% of its assets in ancillary liquid assets, cash, cash equivalents and money market instruments, which may include certificates of deposits issued by banks, treasury notes, depository receipts, freely transferable promissory notes and short term bank deposits.

The residual assets of the Sub-Fund will consist in ancillary liquid assets, as described above, as may be required from time to time for dealing liquidity purposes and payment of costs and expenses of the Sub-Fund. The Sub-Fund intends to minimise the level of ancillary liquid assets held for these purposes.

To this end, the Master Fund mainly invests in equities issued by companies active worldwide in the gold mining, precious metals, and precious stones industries to benefit from the growth and scarcity of future gold reserves. The portfolio construction combines a bottom-up approach which searches for companies with organic growth, value, a potential to be acquired and a strong management; with a top-down overlay adjusting weights to match gold price outlook.

The Master Fund invests primarily in eligible transferable securities (including those represented by American Depository Receipts and

Global Depository Receipts), (i) issued by companies worldwide active in the gold mining, precious metals and precious stones industries and/or (ii) replicating on a one-to-one basis the price of gold or other precious metals. It is intended to invest at least two-thirds (2/3rds) of the Master Fund's portfolio in gold mining companies active in the fields of exploration, extraction, processing, production and marketing or in companies with a substantial part of their turnover or income related to such activities or in companies financing such activities. The Master Fund may be leveraged up to 50% of its net asset value and this may have an impact on the Net Asset Value of the Sub-Fund in certain market conditions. The Master Fund will not hold physical gold, precious metals or precious stones. The Master Fund may be invested in small cap companies (as considered in their respective markets).

The Master Fund uses the NYSE Arca Gold Miners Total Return Net Dividend Index (Bloomberg Ticker: GDMNTR Index) as its benchmark for the purposes of its VaR calculations. Direct investments (local shares) in Russia (other than investments traded on the Moscow Exchange MICEX-RTS or any successor thereof) and investments in markets which are not Regulated Markets shall in aggregate not exceed 10% of the Master Fund's net assets.

The Sub-Fund is denominated in USD. This share class is in USD.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Dealing Frequency: You may redeem shares in this Sub-Fund on a daily basis and in accordance with the relevant notice period.

Distribution policy: Income accumulated.

Risk and Reward Profile

What does it mean?

The risk and reward indicator is a measure of risk based on the past performance and simulated past performance of the Sub-Fund. The risk and reward indicator is calculated using historical and simulated historical data. Historical data may not be a reliable indication for the future. Therefore the risk classification may change over time. Even if the Sub-Fund is in the lowest risk category, it does not mean it is risk free or that capital is guaranteed or protected.

Why is this Sub-Fund in this category?

The Sub-Fund is rated 7 due to the nature of its investments. Specifically, the Master Fund's investments are concentrated in shares of companies active in the fields of exploration, extraction, processing, production and marketing in the sectors of gold mining (no less than two-thirds of the Master Fund's assets), other precious metals and precious stones.

Are there any other particular risks?

The following risks can be materially relevant but are not necessarily adequately captured by the synthetic risk indicator and may cause additional loss.

Through its investment in the Master Fund the Sub-Fund is exposed to gold securities which are cyclical in nature. Investments in gold securities can be significantly affected by international economic, monetary and political developments. Investments in gold securities may decline in value due to developments specific to the gold industry. Again, gold prices can swing sharply in response to cyclical economic conditions.

For more information about risk, see the "Risk Factors" section in the prospectus, available on www.vaneck.com.

Past Performance

The entry and exit charges shown are maximum figures. The Master Fund does not charge any entry or exit charges to the Sub-Fund. In case of a switch between sub-funds or share classes of the ICAV, a switch charge will only be applicable if a higher entry charge is applicable to the shares of the new share class or sub-fund being acquired. The switch charge shall not, in any case, exceed the difference between the entry charge applicable to the new share class or sub-fund being acquired and the entry charge applicable to the share class or sub-fund being switched and its maximum is 5%.

In some cases you might pay less – you can find this out from your financial adviser or distributor. The Sub-Fund's ongoing charge shown combines the costs of both the Sub-Fund and the Master Fund and is the estimated maximum figure which may vary from year to year. The ongoing charge excludes portfolio transaction costs and extraordinary costs and expenses.

For more information about charges, see the "Fees and Expenses" section in the prospectus, available on www.vaneck.com.

Any indication of past performance is not a reliable indicator of future performance.

The Sub-Fund and the share class was launched on 16/06/2017.

This performance relates to the VanEck SICAV performance before the merger on 16/06/2017.
