

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

Global Hard Assets UCITS (the "Sub-Fund")

a Sub-Fund of VanEck ICAV (the "ICAV")

Share Class: USD R1 Acc (ISIN: IE00BYXQS972)

The management company of the Sub-Fund is VanEck Investments Limited.
VanEck Investments Limited is a subsidiary of Van Eck Associates Corporation.

Objectives and Investment Policy

The Sub-Fund aims to generate medium to longer-term capital growth by means of a portfolio of international equity investments in the commodities sector.

The investment policy of the Sub-Fund is to seek long-term capital appreciation by investing primarily in equity securities issued by Hard Asset Companies, i.e. companies that derive, directly or indirectly, at least 50% of their revenue from exploration, development, production, distribution of processes related to Hard Assets. Hard Assets consist of precious metal (e.g. gold), base and industrial metals, energy, natural resources and other commodities. Hard Assets can include real estate. There is no set geographic focus for investment.

The Sub-Fund will seek to invest at least two thirds of its assets in equities, IPOs and equity linked-securities (e.g. preferred and common stocks, debentures and depository receipt) of companies which primarily generate their income from commodities exploration, development, production or distribution (in this connection, the term "commodities" covers areas such as energy (in particular oil and gas, but also alternative energy), precious metals, non-precious metals, forestry products (timber, pulp and paper), real estate or other areas of natural resources) and in derivatives of financial instruments whose underlying assets represent these equities. An equity-linked security is an instrument whose return is determined by the performance of a single, underlying equity security or a basket of equity securities. The return on investment is dependent on upon the performance of the underlying equities that are linked to the equity-linked securities. The Sub-Fund seeks to achieve an appropriate risk spread by diversifying the investment across the respective aforementioned securities.

In addition, the Sub-Fund will seek to diversify its investments across various countries and currencies, including emerging markets. Within

the investment limits specified in the Prospectus, up to one third of the Sub-Fund's assets may be invested in participations notes (P Notes) and American Depositary Receipts (ADRs) to gain exposure to equity securities instead of using physical securities in circumstances where it is not possible to hold these directly or where it is otherwise advantageous to the Sub-Fund to do so.

The Sub-Fund may invest in such P Notes to gain exposure to restricted markets such as the Saudi Arabian or Indian market. As at the date of this KIID, the Sub-Fund will invest in such P Notes to gain exposure to the Saudi Arabian market.

The Sub-Fund may invest in unleveraged instruments, e.g. index tracking certificates and exchange traded noted (ETNs).

The Sub-Fund may invest up to 10% of its assets in shares of other UCITS or other collective investment schemes. The Sub-Fund may invest in exchange traded funds (ETF).

The Sub-Fund may invest in securities of companies with any level of market capitalisation and may therefore have an exposure to small- or mid-cap companies if such investments are in keeping with the Sub-Fund's Investment objective and investment policy.

The ancillary liquid assets, money market instruments and FDI (other than permitted unlisted investments) will be listed or traded on Regulated Markets referred to in the Prospectus.

The Sub-Fund is denominated in USD. This share class is in USD.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Dealing Frequency: You may redeem shares in this Sub-Fund on a daily basis and in accordance with the relevant notice period.

Distribution policy: Income accumulated.

Risk and Reward Profile

What does it mean?

The risk and reward indicator is a measure of risk based on the past performance and simulated past performance of the Sub-Fund.

The risk and reward indicator is calculated using historical and simulated historical data. Historical data may not be a reliable indication for the future. Therefore the risk classification may change over time. Even if the Sub-Fund is in the lowest risk category, it does not mean it is risk free or that capital is guaranteed or protected.

Why is this Sub-Fund in this category?

The Sub-Fund is rated 6 due to the nature of its investments. Specifically, the Sub-Fund's investments are concentrated in shares of companies active in the exploration, development, production or distribution of "hard assets" (no less than two-thirds of the Sub-Fund's assets).

Are there any other particular risks?

The following risks can be materially relevant but are not necessarily adequately captured by the synthetic risk indicator and may cause additional loss.

Hard assets and hard asset securities are cyclical in nature. During periods of economic or financial instability, hard asset securities may be subject to broad price fluctuations, reflecting volatility of energy and basic materials prices and possible instability of supply of various hard assets. In addition, "hard asset companies" may be subject to the risks generally associated with extraction of natural resources, such as the risks of mining and oil drilling, and the risks of the hazards associated with natural resources, including but not limited to fire, drought and increased regulatory and environmental costs.

For more detailed information about the risks related to the investment in the Sub-Fund, please see the "Risk Factors" section in the Sub-Fund supplement of the prospectus, available on www.vaneck.com.
