Investment Manager's Report

MARKET REPORT

Gold Miners

This market background summary covers VanEck Vectors™ Gold Miners UCITS ETF and VanEck Vectors™ Junior Gold Miners UCITS ETF.

- For the period from 1 January 2020 to 30 June 2020, VanEck Vectors™ Gold Miners UCITS ETF and VanEck Vectors™ Junior Gold Miners UCITS ETF returned 24.31% and 16.31% respectively.
- Gold and gold stocks had outstanding performances in 2020 YTD. The gold price surged \$264 per ounce (17.3%).
- Systemic risks are on the rise again as governments around the world race to resuscitate their economies by injecting record levels of liquidity into the markets. Meanwhile, gold continues to grind higher as investors assess the damage caused by this global pandemic and weigh the possibility of further market turmoil down the road.
- Corporate debt now exceeds its 2009 peak and the overall credit quality has deteriorated. With unprecedented monetary policy measures the case for gold investing has become more relevant than ever.
- After the mega-M&A deals of 2019, gold stocks are still attractively priced with P/CF ratios below their long-term average and junior miners are deeply discounted on a P/NAV basis. With gold prices trending higher, gold stocks optionality to gold through earnings and resources leverage.

Morningstar US Wide Moat

This market background summary covers VanEck Vectors Morningstar US Wide Moat UCITS ETF.

- For the period from 1 January 2020 to 30 June 2020, VanEck Vectors Morningstar US Wide Moat UCITS ETF returned -4.98%.
- VanEck Vectors Morningstar Wide Moat UCITS ETF seeks to replicate as closely as possible, before
 fees and expenses, the price and yield performance of the Morningstar[®] Wide Moat Focus IndexTM
 (MWMFTR). The index targets U.S. companies with sustainable competitive advantages, i.e.,
 "moats," and attractive valuations in the view of Morningstar's team of more than 100 equity analysts.
- According to the forward-looking process of Morningstar's Equity Research group, companies with
 moats have the potential to create above-average returns for longer periods of time. The index's
 approach to investing in U.S. companies with wide economic moats when they are attractively priced
 has resulted in long-term outperformance versus the broad U.S. equity market.
- The Fund returned -4.98% for the 6 months period under review. The primary driver of performance was of course the global outbreak of Covid-19, which had a significant impact on US equity markets as the global benchmark.
- 2020 YTD was of course dominated by the market-sell off in March and the swift recovery afterwards.
 Major contributors to the recovery came from the Information Technology, Consumer Discretionary
 and Energy sectors. The biggest individual contributors to performance were Core Laboratories, Ve eva, Microsoft and Amazon.

Emerging Markets Government Debt

This market background summary covers VanEck Vectors™ J.P. Morgan EM Local Currency Bond UCITS ETF.

• For the period from 1 January 2020 to 30 June 2020, VanEck Vectors™ J.P. Morgan EM Local Currency Bond UCITS ETF returned -7.23%.

Investment Manager's Report (continued)

MARKET REPORT (continued)

Emerging Markets Government Debt (continued)

- Within emerging markets debt, local currency bonds have historically provided the greatest diversification benefit compared to U.S. dollar-denominated emerging markets sovereign or corporate bonds, as measured by the segment's relatively low correlation to other asset classes.
- Returns were driven by the Covid-19 outbreak in the beginning of the year. The following recovery
 was supported to globally highly accommodative central bank policy. Emerging markets central
 banks have responded to the recent downturn by prioritizing growth and financial stability over inflation. Many have aggressively cut rates, and in some countries, quantitative easing (QE)-style open
 market operations have been implemented.
- Amidst the current risk-off environment, there has been a steep decline in the values of many emerging markets currencies, particularly those of oil exporters such as Mexico and Russia. There were especially hard-hit when oil prices shortly turned negative in May 2020.

Emerging Markets Corporate Debt

This market background summary covers VanEck Vectors™ Emerging Markets High Yield Bond UCITS ETF.

- For the period from 1 January 2020 to 30 June 2020, VanEck Vectors™ Emerging Markets High Yield Bond UCITS ETF returned -2.24%.
- Emerging markets corporate high yield bond spreads continue to stand out following the selloff experienced in March and April. While U.S. high yield bond spreads remain elevated, EM spreads are tighter compared to the widest levels reached in late March.
- Of course, Covid-19 dominated the investment environment for EM high yield bonds as well and the market is pricing in a substiantial amount of risk, including a significantly higher probability of defaults.

Natural Resources

This market background summary covers VanEck Vectors™ Natural Resources UCITS ETF and VanEck Vectors™ Global Mining UCITS ETF.

- For the period from 1 January 2020 to 30 June 2020, VanEck Vectors™ Natural Resources UCITS ETF returned -18.36%. For the period from 1 January 2020 to 30 June 2020, VanEck Vectors, VanEck Vectors™ Global Mining UCITS ETF returned -0.97%.
- Commodities and natural resource equities faced a number of headwinds leading up to June 2020 as fears around the global economy dominated the space.
- Multiple events created headwinds for global trade in 2020, which has a significant impact on commodities and natural resources. First, the tensions between the U.S. and China remain elevated. Second, the global Covid-19 pandemic brought the globe and trade to a standstill as economies were shutdown.
- Oil has essentially been hit by a triple "black swan" event. Obviously, there is COVID-19, with its
 potentially long-lasting demand impact, and the OPEC+ supply issue, which started back in early
 March when Saudi Arabia and Russia could not come to terms on production cuts. But, then there is
 also the issue of energy transition, which started years ago and really began to ramp up this January
 with a letter from BlackRock CEO, Larry Fink. In addition to that, oil prices shortly turned negative in
 May 2020, when fears about limited inventory capabilities in the major Crude oil hub, Cushing, Oklahoma, USA, came up.
- Gold on the other hand has been the only commodity to receive any real benefit from the turmoil that has hit both the world's financial markets and its populations, outperforming most asset classes so far in the market sell-off.

Investment Manager's Report (continued)

MARKET REPORT (continued)

U.S. Preferred Stocks

This market background summary covers VanEck Vectors™ Preferred US Equity UCITS ETF.

- For the period from 1 January 2020 to 30 June 2020, VanEck Vectors™ Preferred US Equity UCITS ETF returned -3.70%.
- Preferred securities are considered hybrid securities because they have features of both debt and
 equity securities. Historically, a company's preferred securities have offered higher yields than either
 its common stock or its senior debt. The Wells Fargo[®] Hybrid and Preferred Securities Aggregate
 Index (WAGG) tracks the performance of non-convertible U.S. preferred securities issued by companies that are listed on U.S. exchanges.
- The Federal Reserve lowered rates twice this year to 0% (lower bound) 0.25% (upper bound) and expanded their emergency programmes, leading to increased interest in other income producing assets such as preferred securities.

Fallen Angels

This market background summary covers VanEck Vectors™ Global Fallen Angel High Yield Bond UCITS ETF.

- For the period from 1 January 2020 to 30 June 2020, VanEck Vectors™ Global Fallen Angel High Yield Bond UCITS ETF returned 1.02%.
- Fallen angel bonds are part of the overall high yield universe but unique in that they were originally issued with investment grade ratings and later downgraded to non-investment grade, or high yield. This results in differentiating characteristics versus the broader high yield bond market—such as, a higher average credit quality—and the crossover from investment grade to high yield markets is where the value proposition of fallen angels originates.
- The volume of fallen angels has been quite low in recent years due to a tremendous amount of liquidity in the markets in recent years and the longest economic expansion in U.S. history. This ended in Q1 2020 with the outbreak of Covid-19.
- Rating agencies have already started to act on the back of deteriorating company cash flows, resulting in approximately \$90 billion of index eligible US-fallen angels year to date. This already puts 2020 nearly on par with 2005 as the highest calendar year ever for US-fallen angel volume.
- In addition, the Federal Reserve started to buy fallen angel bonds in Q2 2020 and is providing unprecedented support to the credit markets.

Esports and Video Gaming

This market background summary covers VanEck Vectors™ Video Gaming and eSports UCITS ETF.

- For the period from 1 January 2020 to 30 June 2020, VanEck Vectors™ Video Gaming and eSports UCITS ETF returned 35.72%.
- Covid-19 was the dominating headline when looking at video gaming and esports investing. Shelterin-place orders amid the Covid-19 pandemic have helped push video gaming and esports into the mainstream spotlight.
- Video game engagement has broken records across a variety of metrics since the virus shutdown began. Esports recently set a world record for live TV audience with the eNASCAR races that were held in place of regular, live races. However, some esports leagues and tournaments have been put on hold. For instance, the League of Legends Mid-Season Invitational was cancelled due to travel restrictions put in place arou performance.

| VanEck Vectors™ Global Mining UCITS ETF | -0.97% | -0.60% | -0.37% |
| VanEck Vectors™ Video Gaming and eSports UCITS ETF | 35.72% | 36.14% | -0.42% |

The sub-fund returns are based on the calculated ending net asset value ("NAV") for the financial period under review. The sub-fund returns are net of management fees.

Important information on performance

The performance data quoted represents past performance. All Fund and Index performances are calculated in USD.

Past performance is not a guarantee of future results. Performance information for the Fund is net of expenses and/or fees. These returns do not reflect the deduction of taxes that a shareholder would pay on the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted.

Investment Manager's Report (continued)

FUND REPORT (continued)

Important information on performance (continued)

The "Net Asset Value" (NAV) of a VanEck Vectors™ UCITS ETFs Plc sub-fund is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Tracking Error

The realised tracking error is the annualised standard deviation of the difference in daily returns between a sub-fund and its index. Tracking error shows the consistency of the returns relative to the index over the defined period of time.

Anticipated tracking error is based on the annualised standard deviation of the difference in daily returns between a sub-fund and its index under normal market conditions.

Cash management, efficient portfolio management techniques including securities lending, transaction costs from rebalancing and currency hedging can have an impact on tracking error as well as the return differential between the cash component of the fund. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

In addition to the above, the sub-funds may also have a tracking error due to withholding tax charged to the sub-funds on any income received from its investments. The level of tracking error arising due to withholding taxes depends on various factors such as any reclaims filed by the sub-funds with various tax authorities, any benefits obtained by the Funds under a tax treaty or any securities lending activities carried out by the Funds.

The table below shows the anticipated annual tracking error of the sub-funds against the realised tracking error of the sub-funds. Realised tracking error is an annualized figure calculated using data from the preceding 12 months observation period.

| Fund | Anticipated Tracking Error 1 year | Realised Tracking Error 1 year |
|---|---|-----------------------------------|
| VanEck Vectors™ Junior Gold Miners UCITS ETF | Up to 1.0% | 1.04% |
| VanEck Vectors™ Gold Miners UCITS ETF | Up to 0.5% | 0.17% |
| VanEck Vectors Morningstar US Wide Moat UCITS ETF | Up to 0.5% | 0.10% |
| VanEck Vectors™ J.P. Morgan EM Local Currency Bond UCITS ETF | Up to 2.5% | 1.60% |
| VanEck Vectors™ Natural Resources UCITS ETF | Up to 1.0% | 0.39% |
| VanEck Vectors™ Preferred US Equity UCITS ETF | Up to 1.0% | 0.17% |
| VanEck Vectors™ Global Fallen Angel High Yield Bond UCITS ETF | Up to 1.5% | 1.04% |
| VanEck Vectors™ Emerging Markets High Yield Bond UCITS ETF | Up to 1.5% | 1.36% |
| VanEck Vectors™ Global Mining UCITS ETF | Up to 1.0% | 0.34% |
| VanEck Vectors™ Video Gaming and eSports UCITS ETF | Up to 1.0% | 0.09% |

Performance Comparison

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Investment Manager's Report (continued)

FUND REPORT (continued)

Commencement date for Performance Comparison

The price used to calculate market return (Share Price) is the closing USD price listed on the London Stock Exchange. Since the shares of the Funds did not trade on the secondary market until several days after the Funds' commencement, the NAV of the Funds is used as a proxy for the secondary market trading price to calculate market returns for the periods between commencement date and the first day of secondary market trading in shares of the Funds. For the VanEck Vectors™ Gold Miners UCITS ETF and the VanEck Vectors™ Junior Gold Miners UCITS ETF, this period extends from 25 March 2015 to 15 April 2015; for the VanEck Vectors Morningstar US Wide Moat UCITS ETF from 16 October 2015 to 28 October 2015; for the VanEck Vectors™ J.P. Morgan EM Local Currency Bond UCITS ETF from 7 April 2017 to 20 April 2017; for VanEck Vectors™ Natural Resources UCITS ETF from 21 September 2017 to 20 October 2017; for VanEck Vectors™ Preferred US Equity UCITS ETF from 22 September to 20 October 2017; for VanEck Vectors™ Global Fallen Angel High Yield Bond UCITS ETF from 19 March 2018 to 23 March 2018; for VanEck Vectors™ Emerging Markets High Yield Bond UCITS ETF from 20 March 2018 to 23 March 2018; for VanEck Vectors™ Global Mining UCITS ETF from 18 April 2018 to 23 April 2018 and for VanEck Vectors™ Video Gaming and eSports UCITS ETF from 24 June 2019 to 26 June 2019.

Investment Manager's Report (continued)

FUND REPORT (continued)

The MVIS Global Video Gaming and eSports Index (MVESPOTR) is a global index that tracks the performance of the global video gaming and eSports segment. The index includes companies with at least 50% (25% for current components) of their revenues from video gaming and/or eSports. These companies may include those that develop video games and related software/hardware, streaming services and are involved in eSports events. The MVIS Global Video Gaming & eSports Index (MVESPO) covers at least 90% of the investable universe.

The MVIS Global Video Gaming and eSports Index is the exclusive property of MVIS (a wholly owned subsidiary of Van Eck Associates Corporation), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards MV Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. The VanEck Vectors Video Gaming and eSports UCITS ETF is not sponsored, endorsed, sold or promoted by MV Index Solutions GmbH and MV Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

Hypothetical Growth of USD 10,000 (Since inception, 24 June 2019)

This chart shows the value of a hypothetical USD 10,000 investment in the Fund at NAV and at Share Price over the past year. The result is compared with the Fund's benchmark.

| Total Return | Share Price | NAV | (MVESPOTR) |

VanEck Vectors™

Notes to the Financial Statements

1. Organisation

VanEck VectorsTM UCITS ETFs plc (the "Company") was incorporated on 26 August 2014 under the laws of Ireland. The Company is a public limited company with variable capital and is structured as an umbrella fund with segregated liability between sub-funds established pursuant to the Companies Act 2014. The sole objective for which the Company is established is the collective investment in transferable securities and/or other liquid financial assets as pursuant to the UCITS Regulations and Central Bank UCITS Regulations. The Company was authorised by the Central Bank of Ireland on 8 December 2014.

As at 30 June 2020, the Company consisted of ten sub-funds, collectively the "sub-funds", and individually the "sub-fund". As at 30 June 2020, each sub-fund had one share class in issue – USD A Share class.

VanEck Vectors[™] Junior Gold Miners UCITS ETF (the "sub-fund")

The investment objective of the sub-fund is to track, before fees and expenses, the price and yield performance of the MVIS Global Junior Gold Miners Index (the "Index").

VanEck Vectors[™] Gold Miners UCITS ETF (the "sub-fund")

The investment objective of the sub-fund is to track, before fees and expenses, the price and yield performance of the NYSE Arca Gold Miners Index (the "Index").

VanEck Vectors Morningstar US Wide Moat UCITS ETF (the "sub-fund")

The investment objective of the sub-fund is to track, before fees and expenses, the price and yield performance of the Morningstar® Wide Moat Focus IndexSM (the "Index").

VanEck VectorsTM J.P. Morgan EM Local Currency Bond UCITS ETF (the "sub-fund")

The investment objective of the sub-fund is to replicate, before fees and expenses, the price and yield performance of the J.P. Morgan GBI–EM Global Core Index (the "Index").

VanEck Vectors[™] Natural Resources UCITS ETF (the "sub-fund")

The investment objective of the sub-fund is to replicate, before fees and expenses, the price and yield performance of the VanEckTM Natural Resources Index (the "Index").

VanEck VectorsTM Preferred US Equity UCITS ETF (the "sub-fund")

The investment objective of the sub-fund is to replicate, before fees and expenses, the price and yield performance of the Wells Fargo Hybrid and Preferred Securities Aggregate Index (the "Index").

VanEck Vectors[™] Global Fallen Angel High Yield Bond UCITS ETF (the "sub-fund")

The investment objective of the sub-fund is to replicate, before fees and expenses, the price and yield performance of the ICE BofAML Global Fallen Angel High Yield Index (the "Index").

VanEck Vectors[™] Emerging Markets High Yield Bond UCITS ETF (the "sub-fund")

The investment objective of the sub-fund is to replicate, before fees and expenses, the price and yield performance of the ICE BofAML Diversified High Yield US Emerging Markets Corporate Plus Index (the "Index").

VanEck Vectors[™] Global Mining UCITS ETF (the "sub-fund")

The investment objective of the sub-fund is to replicate, before fees and expenses, the price and yield performance of the EMIX Global Mining Constrained Weights Index (the "Index").

VanEck Vectors[™] Video Gaming and eSports UCITS ETF (the "sub-fund")

The investment objective of the sub-fund is to replicate as closely as possible, before fees and expenses, the price and yield performance of the MVIS® Global Video Gaming & eSports Index (the "Index").

As at 30 June 2020, the sub-funds of VanEck Vectors UCITS ETFs plc are listed on Euronext Dublin, London Stock Exchange, Borsa Italiana, XETRA and Six Swiss Exchange.

Notes to the Financial Statements (continued)

2. Significant Accounting Policies

a) Basis of Preparation

The Company's annual financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU"), the UCITS Regulations, the Companies Act 2014 and the Central Bank UCITS Regulations. These condensed interim unaudited financial statements have been prepared in accordance with IAS 34, "Interim Financial Reporting", and Irish Statute comprising the Companies Act 2014, the UCITS Regulations and the Central Bank UCITS Regulations. These condensed interim unaudited financial statements should be read in conjunction with the annual audited financial statements for the financial year ended 31 December 2019.

The financial statements have been prepared on a going concern basis which assumes that the Company will continue in operational existence for the foreseeable future. The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

The preparation of financial statements in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates.

The Board of Directors make estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. There are no estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities.

New standards, amendments and interpretations issued and effective for the financial period beginning 1 January 2020

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning on 1 January 2020 that might have a material impact on the Company's financial statements.

New standards, amendments and interpretations issued but not effective for the financial period beginning 1 January 2020 and not early adopted

IFRS 17: Insurance Contracts, was issued in May 2017 and will become effective for accounting periods beginning on or after 1 January 2023. It applies to: insurance contracts, including reinsurance contracts, issued by an entity; reinsurance contracts held by an entity; and investment contracts with discretionary participation features issued by an entity that issues insurance contracts. An insurance contract is defined as 'a contract under which one party (the issuer) accepts significant insurance risk from another party (the policyholder) by agreeing to compensate the policyholder if a specified uncertain future event (the insured event) adversely affects the policyholder'. The new standard is not expected to have a significant impact on the sub-funds financial position, performance or disclosures in its financial statements.

3. Share Capital

The Authorised Share Capital of the Company is 2 subscriber shares of €1 each and 1,000,000,000,000 participating shares of no par value. There are no rights of pre-emption attached to the shares.

The Company complies with the minimum capital requirements by ensuring that each shareholder holds a minimum of 50,000 shares.

Shareholders are entitled to attend and vote at general meetings of the Company. Every shareholder, holding shares that are present in person or by proxy shall have one vote and on a poll, every shareholder present in person or by proxy shall have one vote for every share of which they are the holder.

Notes to the Financial Statements (continued)

3. Share Capital (continued)

The Directors are authorised to allot relevant securities up to an amount equal to the authorised share capital of the Company. No shares were allotted during the financial period ended 30 June 2020 and the financial year ended 31 December 2019.

The Directors reserve the right to reject, in whole or in part, any application for shares. In particular, if the Directors determine that it would be detrimental to the existing shareholders to accept a cash application for shares of any subfund which represents more than 10% of the Net Asset Value of such sub-fund, the Directors may decide that all or part of the application for shares in excess of 10% be deferred until the next Dealing Day. If the Directors decide to defer all or part of the application in excess of 10% the applicant shall be informed prior to the deferral taking place.

During the financial period ended 30 June 2020 the number of redeemable shares issued and fully paid was as follows:

4. Cash and Cash Equivalents

The cash balances and bank overdraft at the financial period ended 30 June 2020 and the financial year ended 31 December 2019 were held at the Depositary. As at 30 June 2020 the sub-fund VanEck Vectors[™] J.P Morgan EM Local Currency Bond UCITS ETF had an overdraft balance of US\$Nil (31 December

Notes to the Financial Statements (continued)

4. Cash and Cash Equivalents (continued)

2019: (US\$139,488)). The credit rating of State Street Custodial Services (Ireland) Limited was AA- at 30 June 2020 (The Bank of New York Mellon SA/NV at 31 December 2019: A).

5. Financial Assets and Financial Liabilities at Fair Value through Profit or Loss

IFRS 13 'Fair Value Measurement' requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities in the Statement of Financial Position.

The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value. The fair value of financial assets and financial liabilities traded in an active market (such as trading securities) are based on quoted market prices at the close of trading on the reporting date.

The quoted market price used for financial assets held by the sub-funds is the current bid price; the appropriate quoted market price for financial liabilities is the last traded price.

A financial instrument is regarded as quoted in an active market if the quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The fair value of financial assets and financial liabilities that are not traded in an active market is determined by using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at the reporting date. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

As the fair values of the investments for VanEck VectorsTM Junior Gold Miners UCITS ETF, VanEck VectorsTM Gold Miners UCITS ETF, VanEck Vectors Morningstar US Wide Moat UCITS ETF, VanEck VectorsTM Natural Resources UCITS ETF, VanEck VectorsTM Global Mining UCITS ETF, VanEck VectorsTM Preferred US Equity UCITS ETF and VanEck VectorsTM Video Gaming and eSports UCITS ETF are based on quoted prices in active markets, the sub-funds' financial assets measured at fair value are considered Level 1 for the financial period ended 30 June 2020 and financial year ended 31 December 2019.

As the fair values of the investments for VanEck VectorsTM J.P. Morgan EM Local Currency Bond UCITS ETF, VanEck VectorsTM Global Fallen Angels High Yield Bond UCITS ETF and VanEck VectorsTM Emerging Markets High Yield Bond UCITS ETF are based on inputs other than quoted prices, the sub-funds' financial assets are considered Level 2 for the financial period ended 30 June 2020 and financial year ended 31 December 2019.

The Company's assets and liabilities (by class) not measured at fair value at financial period ended 30 June 2020 or financial year ended 31 December 2019 but for which fair value is disclosed within the fair value hierarchy are considered Level 2, except for cash and cash equivalents, which are considered Level 1.

6. Efficient Portfolio Management

The Company may, on behalf of each sub-fund and subject to the conditions and within the limits laid down by the Central Bank of Ireland, employ techniques and instruments relating to transferable securities for efficient portfolio management purposes. Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving a reduction in risk, a reduction in costs or an increase in capital or income returns to a sub-fund and may not be speculative in nature.

The sub-funds may invest in financial derivative instruments ("FDI") for efficient portfolio management or hedging purposes. The sub-funds may use futures, swaps and currency forwards for the purpose of reducing

Notes to the Financial Statements (continued)

6. Efficient Portfolio Management (continued)

risk associated with currency exposures within the sub-fund. These techniques and instruments may include investments into hedging transactions on currencies to protect against a decline in the value of investments denominated in currencies other than US\$, and against any increase in the cost of investments denominated in currencies other than US\$. The sub-funds employ the commitment approach to assess the global exposure and to ensure that the sub-fund's use of derivative instruments is in accordance with the requirements of the Central Bank of Ireland.

Forward foreign currency contracts can be used to hedge out unwanted currency exposures and to limit the sub-funds exposure to anticipated changes in exchange rates. There are no forward foreign currency contracts held at the financial period ended 30 June 2020 and the financial year ended 31 December 2019.

The sub-funds may enter into stock lending, repurchase and/or reverse repurchase agreements for the purposes of efficient portfolio management in accordance with the provisions of the Central Bank UCITS Regulations. The sub-funds did not enter into such agreements during the financial period ended 30 June 2020 and the financial year ended 31 December 2019.

7. Taxation

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On this basis, it is generally not chargeable to Irish tax on its income or gains.

However, Irish tax can arise on the happening of a "chargeable event" in the Company. A chargeable event includes any payments of distributions to shareholders, any encashment, repurchase, redemption, cancellation or transfer of shares and any deemed disposal of shares as described below for Irish tax purposes arising as a result of holding shares in the Company for a period of eight years or more. Where a chargeable event occurs, the Company is required to account for the Irish tax thereon.

No Irish tax will arise on the Company in respect of chargeable events where:

- a) certain exempted Irish resident investors who have provided the Company with the necessary signed statutory declarations; or
- b) any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland; or
- c) an exchange of shares representing one Sub-Fund for another Sub-Fund of the Company; or
- d) an exchange of shares arising on a qualifying amalgamation or reconstruction of the Company with another company; or
- e) certain exchanges of shares between spouses and former spouses.

In the absence of an appropriate declaration, the Company will be liable to Irish tax on the occurrence of a chargeable event. There were no chargeable events during the financial year under review. Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its shareholders.

8. Expenses

Total Fee

The Total Fee, a percentage of the Net Asset Value of the relevant class of shares, is payable by the Company out of the sub-funds' assets to the Manager.

Notes to the Financial Statements (continued)

8. Expenses (continued)

The Total Fee incurred by the Company during the financial periods ended 30 June 2020 and 30 June 2019 are detailed below.

¹ Launched on 24 June 2019.

The Total Fee covers all of the ordinary fees, operating costs and expenses payable by the sub-funds, including investment management and advisory fees, Director's fees, registration, transfer agency, administration and depositary fees, registrar fees, regulators and auditors and certain legal expenses of the Company. Refer to pages 27 to 30 for details of the Total fee.

Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss plus, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Transaction costs on purchases and sales of equities are included in net gains/(losses) on investments in the Statement of Comprehensive Income for each sub-fund. For the financial period ended 30 June 2020 and the

Connected Parties

Regulation 43(1) of the UCITS Regulations "Restrictions of transactions with connected persons" states that "a responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the unit-holders of the UCITS". As defined in Regulation 81.4, the Directors, as responsible persons are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by UCITS Regulation 43(1) are applied to all transactions with a connected party; and all transactions with connected parties that were entered into during the financial period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

10. Contingent Liabilities and Commitments

There were no significant liabilities or commitments as at financial period ended 30 June 2020 and the financial year ended 31 December 2019.

11. Segregation of Liability

Under the provisions of the Companies Act 2014, the Directors maintain for each sub-fund a separate portfolio of assets. As between shareholders, each portfolio of assets is invested for the exclusive benefit of the relevant sub-fund. The shareholders are only entitled to the assets and profits of that sub-fund in which they participate. The Company is considered one single legal entity. With regard to third parties, in particular towards the Company's creditors, the Company is responsible for all liabilities incurred by a sub-fund exclusively based on the assets of this relevant sub-fund. Among the shareholders, the liabilities of each sub-fund shall only be incurred to the sub-fund. While the provisions of the Companies Act provide for segregated liability between sub-funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditors' claims.

Accordingly, it is not free from doubt that the assets of a sub-fund of the Company may not be exposed to the liabilities of other sub-funds of the Company.

12. Significant Events During the Financial Period

On 27 January 2020 the Company appointed State Street Custodial Services (Ireland) Limited to act as the Depositary of the company's assets pursuant to the Depositary Agreement.

State Street Fund Services (Ireland) Limited has been appointed by the Manager to act as Administrator and Transfer Agent under the terms of the administrator agreement.

A new Prospectus for the sub-funds was issued on 27 January 2020.

The COVID-19 epidemic is believed to have originated in Wuhan, Hubei, China. While containment efforts were made to slow the spread of the epidemic the outbreak has now spread globally and has led to the World Health Organisation declaring the COVID-19 outbreak a pandemic on 11 March 2020. Containment efforts are impacting global supply chains, general public confidence and all major stock markets have fallen significantly since year end. There has also been a large decline in energy prices, including oil, the decline in price of which has been further exacerbated by tensions among leading oil producing nations.

Notes to the Financial Statements (continued)

12. Significant Events During the Financial Period (continued)

The Board of Directors is aware that global financial markets have been monitoring and reacting to the outbreak. All markets have incurred increased volatility and uncertainty since the onset of the pandemic. As the sub-funds track indices, they are exposed to the movements of the underlying indices which were volatile post year end following COVID-19.

The Board of Directors has also noted the operational risks that are posed to the Company and its service providers due to global and local movement restrictions that have been enacted by various governments. COVID-19 pandemic is an unprecedented event and the eventual impact on the global economy and markets will largely depend on the scale and duration of the outbreak. The Board of Directors will continue to monitor this situation.

13. Subsequent Events after the Financial Period End

The VanEck Vectors Morningstar Global Wide Moat UCITS ETF Fund launched 7 July 2020.

Mr. Gijs Koning was appointed Director to the Company as at 8 July 2020. Mr. Koning is also Managing Director of VanEck Asset Management B.V., the UCITS Management Company of VanEck is the Netherlands.

An American Depositary Receipt (ADR) is a stock that trades in the United States but represents a specified number of shares in a foreign corporation. ADRs are bought and sold on American markets just like regular stocks, and are issued/sponsored in the U.S. by a bank or brokerage.

A Global Depositary Receipt (GDR) is very similar to an American depositary receipt or an ADR. It is a type of bank certificate that represents shares in a foreign company, such that a foreign branch of an international bank then holds the shares. The shares themselves trade as domestic shares, but globally, various bank branches offer the shares for sale.

An American Depositary Receipt (ADR) is a stock that trades in the United States but represents a specified number of shares in a foreign corporation. ADRs are bought and sold on American markets just like regular stocks, and are issued/sponsored in the U.S. by a bank or brokerage.

A Global Depositary Receipt (GDR) is very similar to an American depositary receipt or an ADR. It is a type of bank certificate that represents shares in a foreign company, such that a foreign branch of an international bank then holds the shares. The shares themselves trade as domestic shares, but globally, various bank branches offer the shares for sale.

2. Securities Lending

There were no securities lending activity during the financial period ended 30 June 2020 or the financial year ended 31 December 2019. The Company is not subject to the disclosure requirements of the Securities Financing Transactions Regulation.

3. Soft Commissions

No soft commission arrangements were entered into during the financial period ended 30 June 2020 or the financial year ended 31 December 2019.

Appendix 1: Other Information (continued)

4. Significant Events during the Financial Period

On 27 January 2020 the Company appointed State Street Custodial Services (Ireland) Limited to act as the Depositary of the company's assets pursuant to the Depositary Agreement.

State Street Fund Services (Ireland) Limited has been appointed by the manager to act as Administrator and Transfer Agent under the terms of the administrator agreement.

A new Prospectus for the sub-funds was issued on 27 January 2020.

The COVID-19 epidemic is believed to have originated in Wuhan, Hubei, China. While containment efforts were made to slow the spread of the epidemic the outbreak has now spread globally and has led to the World Health Organisation declaring the COVID-19 outbreak a pandemic on 11 March 2020. Containment efforts are impacting global supply chains, general public confidence and all major stock markets have fallen significantly since year end. There has also been a large decline in energy prices, including oil, the decline in price of which has been further exacerbated by tensions among leading oil producing nations.

The Board of Directors is aware that global financial markets have been monitoring and reacting to the outbreak. All markets have incurred increased volatility and uncertainty since the onset of the pandemic. As the sub-funds track indices, they are exposed to the movements of the underlying indices which were volatile post year end following COVID-19.

The Board of Directors has also noted the operational risks that are posed to the Company and its service providers due to global and local movement restrictions that have been enacted by various governments. COVID-19 pandemic is an unprecedented event and the eventual impact on the global economy and markets will largely depend on the scale and duration of the outbreak. The Board of Directors will continue to monitor this situation.

5. Exchange Rates

The following exchange rates were used to convert investments, assets and liabilities to the presentation currency of the Company:

Appendix 2: UCITS V

Remuneration Policy

VanEck Investments Limited

This policy is reviewed annually by the Board.

As a UCITS Management Company VanEck Investments Limited (the "Company") must implement a remuneration policy that is consistent with a promote sound and effective risk management in accordance with the UCITS Directive and the remuneration guidelines published by the European Securities and Markets Authority (ESMA) as well as relevant Q&A and other binding guidance issued by the CBI (together the "UCITS Remuneration Code"), which restrict the structure and form of remuneration to certain categories of staff (the "Identified Staff").

The remuneration policy aims to:

- Align the business strategy, values and interests of the Company.
- Discourage excessive risk taking.
- Enable the Company to align the interests of shareholders and the sub-funds managed with the interests of the Identified Staff managing the sub-funds.

The Company does not have staff or employees other than the Directors. The Company does have secondees but the secondees' employers continue to be responsible for the secondees' remuneration.

Only three of the Directors are remunerated for their activities on behalf of the Company. They are paid an annual fixed fee directly from the Company. The remaining Directors do not receive any remuneration from the Company. The Board is satisfied that the Company's remuneration policies and practices for the Directors whose activities may have a material impact on the risk profiles of the Company, are consistent with and promote sound and effective risk management and do not encourage risk-taking which is inconsistent with the risk profiles of the Funds. The Board is satisfied that Company's remuneration policies are designed to be consistent with the UCITS Remuneration Code.

Delegated Functions

Where risk management or portfolio management is delegated, the delegate need only put arrangements in place with respect to those staff of the delegate who have a material impact on the risk profiles of the relevant sub-funds, and in respect of remuneration that is connected with the delegated activities.

Portfolio management has been delegated by the Company to VanEck Associates Corporation, a US based SEC registered investment adviser, and to VanEck Asset Management B.V. ("The Investment Managers").

The Company will, where applicable, seek to ensure that the Investment Managers are contractually obliged in accordance with the terms of the relevant investment manager agreements to observe the UCITS Remuneration Code when making payments to their identified staff for the performance of portfolio management activities on behalf of the company.

Circumstances where the board should be consulted include the following:

- any material issues arise in relation to the Investment Manager's remuneration policies and practices between the regular annual reports which could impact on the Company; and/or
- when the Investment Manager indicates to the Company that its policies no longer comply with the UCITS Remuneration Code.

Appendix 2: UCITS V (continued)

Where a material issue arises in relation to the Company's remuneration policies and practices, the Designated Director may consider either tabling the matter for discussion at a Board meeting of the Company, or where time sensitive, convening an ad-hoc Board meeting to discuss.

| NAME | TITLE | RESPONSIBILITIES | REMUNERATION RECEIVED |

Remuneration Disclosure

Based on the Company's Remuneration Policy its delegates are obliged to disclose certain elements of the remuneration of their employees. These elements are disclosed in the below table.

For the period from 1/1/2019 to 12/31/2019, the table below sets out the portion of total remuneration paid or payable to the Identified Staff of the Company's delegates, split into Fixed Remuneration and Variable Remuneration which are relevant to the Company based upon a pro-rata allocation of total remuneration paid to the Identified Staff of the delegates as reported to the Company by the delegates by reference to the portion of the assets managed by the delegates for the Company when compared to their total assets under management.

Average number
of Identified Staff
of the delegates
14 employees (Passive)
Fixed Remuneration
USD 140,322
USD 328,989

Following the review of the Remuneration Policy undertaken in 2020 and its implementation, no irregularities were identified and no material changes were made to the Remuneration Policy.

^{*} In accordance with the Central Bank UCITS Regulations, the interim report documents material changes that have occurred in the disposition of the assets of the Company during the financial period. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of the purchases for the financial period and/or aggregate disposals greater than 1 per cent of the total value of sales for the financial period. If there are fewer than 20 purchases/sales that meet the material changes definition, the Company shall disclose those purchases/sales so at least 20 purchases/sales are disclosed.

An American Depositary Receipt (ADR) is a stock that trades in the United States but represents a specified number of shares in a foreign corporation. ADRs are bought and sold on American markets just like regular stocks, and are issued/sponsored in the U.S. by a bank or brokerage.

A Global Depositary Receipt (GDR) is very similar to an American depositary receipt or an ADR. It is a type of bank certificate that represents shares in a foreign company, such that a foreign branch of an international bank then holds the shares. The shares themselves trade as domestic shares, but globally, various bank branches offer the shares for sale.

^{*} In accordance with the Central Bank UCITS Regulations, the interim report documents material changes that have occurred in the disposition of the assets of the Company during the financial period. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of the purchases for the financial period and/or aggregate disposals greater than 1 per cent of the total value of sales for the financial period. If there are fewer than 20 purchases/sales that meet the material changes definition, the Company shall disclose those purchases/sales so at least 20 purchases/sales are disclosed.
