Past performance is not a reliable indicator of future performance. Markets may develop completely differently in the future. The chart shows how the fund has been managed in the past and compares it to its benchmark.

Current performance may be lower or higher than average annual returns shown. Performance data is displayed on a Net Asset Value basis, in Base Currency terms, with net income reinvested, net of fees. Brokerage or transaction fees will apply. Returns may increase or decrease as a result of currency fluctuations. Investors must be aware that, due to market fluctuations and other factors, the performance of the ETFs may vary over time and should consider a medium/long-term perspective when evaluating the performance of ETFs. Investing is subject to risks, including the possible loss of principal.
