- **VanEck Hydrogen Economy UCITS ETF, ISIN: IE00BMDH1538**
- **VanEck New China UCITS ETF, ISIN: IE0000H445G8**

Notice to Investors: Prospectus Update - Index changes

The Directors of VanEck UCITS ETFs plc (the “Company”) wish to announce the update of the Prospectus of the Company and the Supplements of the below sub-funds, effective 18 September 2026, EOB.

The updated documents reflect the following changes:

- Amendment of the Supplement of VanEck Hydrogen Economy UCITS ETF (HDRO) to reflect a change to the weight capping methodology of the MVIS® Global Hydrogen Economy ESG Index, whereby the aggregate weight of index constituents from the same parent organization is capped at 10% at each rebalance, in order to address recurring proximity to UCITS single-issuer concentration limits.
- Amendment of the Supplement of VanEck New China UCITS ETF (CNEW) to reflect an update to the MarketGrader New China Screened Index guide, aligning the sanctions screening framework with current market standards.

The abovementioned changes do not affect the SFDR Annexes or the PRIIPs KIDs/UCITS KIIDs of the sub-funds.

The updated Prospectus of the Company is available at www.vaneck.com.

With kind regards,

VanEck UCITS ETFs plc
