offering. The Pro The Pro a portfo annualis Dealing • Produc	hardware such as computer processors and graphics cards used in video gaming systems and related hardware such as controllers, headsets divideo gaming consoles. Where it is not practical or cost efficient for the Product to fully replicate the Index, the Investment Manager may as an optimised sampling methodology. Product may invest up to 15% of its Net Asset Value directly in shares issued by companies listed on the Shanghai Stock Exchange or the enzhen Stock Exchange. The Product may invest more than 20% of its net asset value in emerging markets. Product may also (or alternatively) invest in financial derivative instruments (FDI), for efficient portfolio management and/or hedging purposes y, which relate to the Index or constituents of the Index. The FDI which the Product may use are futures, swaps, currency forwards and non- iverable forwards (a forward contract that does not require settlement on maturity) (NDFs). Product may also invest in ancillary liquid assets and money market instruments which may include bank deposits, depositary receipts tificates of deposit, commercial paper, floating rate notes and freely transferable promissory notes. The ancillary liquid assets, money market truments and FDI (other than permitted unlisted investments) will be listed or traded on the markets referred to in Appendix II of the spectus. Investment in ancillary liquid assets and money market instruments may be utilised in a variety of circumstances, including but no ted to, situations such as managing total exposure to cash and borrowing on a short term basis and in anticipation of participation in a rights aring. Product, using a "passive" or indexing investment approach, attempts to approximate the investment performance of the Index by investing in ortfolio of securities that generally replicates the Index. The Investment Manager will regularly monitor the Product's tracking accuracy. The nualised tracking error envisaged is not anticipated to exceed 0.2% under normal market conditions.

Retail least equal to the recommended holding period shown below. Only those investors who have the ability to make an informed decision based on sufficient knowledge and understanding of the Product and the market and the ability to bear a loss up to a total loss of their investment should consider investing in the Product. The Product does not offer a capital guarantee.

The risk indicator assumes you keep the Product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Lower risk

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you. We have classified this Product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level and poor market conditions will likely to impact the capacity of VanEck UCITS ETFs plc to pay you. **Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.** This Product does not include any protection from future market performance so you could lose some or all of your investment. The following risk may be materially relevant to the Product but may not be adequately captured by the summary risk indicator and may cause additional loss: Concentration Risk and Risk of Investing in Small- and Medium-Capitalization Companies as further described in the Prospectus.

Higher risk

Performance scenarios and the assumptions made to produce them:

What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 years.					
Example Investment: USD 10,000					
Scenarios		If you exit after 1 year	lf you exit after 5 years		
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.				
Stress	What you might get back after costs	USD 3,340	USD 2,360		
	Average return each year	-66.60 %	-25.07 %		
Unfavourable	What you might get back after costs	USD 5,280	USD 6,640		
	Average return each year	-47.24 %	-7.87 %		
Moderate	What you might get back after costs	USD 12,500	USD 32,400		
	Average return each year	24.99 %	26.51 %		
Favourable	What you might get back after costs	USD 20,690	USD 61,150		
	Average return each year	106.95 %	43.64 %		

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between November 2021 and February 2024. The moderate scenario occurred for an investment between October 2014 and October 2019. The favourable scenario occurred for an investment between January 2016 and January 2021. Your maximum loss would be that you will lose all your investment.

What happens if VanEck Asset Management B.V. is unable to pay out?

The assets of the Product are held in safekeeping by the Depositary and are separate assets to those of the Manufacturer. Therefore in the event of the insolvency of the Manufacturer, the Products assets will not be affected. In the event of the Depositary's insolvency, or someone acting on its behalf, the Product may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Product. The Depositary will also be liable to the Product and the investors for any loss arising from, among other things, its negligence or intentional failure properly to fulfil its obligations (subject to certain limitations). The Product's investments do not fall within the scope of any guarantee or compensation scheme.

What are the costs?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- USD 10 000 is invested

Cost over time				
	If you exit after 1 year	If you exit after 5 years		
Total costs	USD 57	USD 282		
Annual cost impact (*)	0.6 %	0.6 %		

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 27.2 % before costs and 26.5 % after costs. We may share part of the costs with the person selling you the Product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs					
	One-off costs upon entry or exit	If you exit after 1 year			
Entry costs	We do not charge an entry fee.	USD 0			
Exit costs	We do not charge an exit fee.	USD 0			
Ongoing costs taken each year					
Management fees and other administrative or operating costs	$0.55\ \%$ of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 55			
Transaction costs	0.02 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.	USD 2			
Incidental costs taken under specific conditions					
Performance fees (and carried interest)	There is no performance fee for this Product.	USD 0			

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This Product is suitable for medium to long-term investment. Shares in the Product can in principle be redeemed on each dealing day. There are no costs or charges for such a transaction. The Manufacturer may suspend redemption if exceptional circumstances make this appear necessary taking into account the interests of the investors as outlined in the Prospectus. Investors will be able to buy and sell the Product on exchange.

How can I complain?

You may send any kind of complaints about the Product or the conduct of the Manufacturer to us via email to <u>complaints-europe@vaneck.com</u> or via letter to either VanEck (Europe) GmbH, Attn. Compliance/Complaints Handling, Kreuznacher Str. 30 60486 Frankfurt/Main, Germany or VanEck Asset Management B.V., Barbara Strozzilaan 310 1083 HN Amsterdam, Netherlands.
