**(a) Summary**

Le VanEck Morningstar Developed Markets Dividend Leaders UCITS ETF (le « Compartiment ») a été classé dans la catégorie de l'article 8 (1) du Règlement (UE) 2019/2088 relatif aux informations relatives au développement durable dans le secteur des services financiers (« SFDR »). Le Compartiment met en avant des principes environnementaux et/ou sociaux et investit dans des entreprises qui suivent des pratiques de bonne gouvernance. Afin d'atteindre chacun des principes mis en avant, le Compartiment intègre des facteurs ESG dans son processus d'investissement passif par le biais d'exclusions ESG au niveau de l'indice de référence suivi par le Compartiment et par le vote par procuration sur les questions de développement durable. L'objectif d'investissement du compartiment n'est pas l'investissement durable.

Le Compartiment pratique une politique d'investissement passive en reproduisant aussi fidèlement que possible son indice de référence et investit dans des instruments financiers directs alignés à 100 % sur les caractéristiques environnementales et sociales qu'il met en avant. L'objectif du Compartiment est d'investir dans les 100 meilleurs payeurs de revenus au niveau mondial, sélectionnés pour leurs rendements de dividendes, leur résilience et leur croissance probable. En outre, la politique de vote ESG s'applique. Les votes exprimés lors des assemblées d'actionnaires des sociétés du portefeuille portent sur des questions de développement durable.

Les investissements du Compartiment doivent respecter l'exigence suivante :

1. Inclusion des entreprises ayant une note de risques ESG ou de controverse de zéro
2. Inclusion des entreprises ayant une Catégorie de risques ESG sévère
3. Inclusion des entreprises ayant une note de controverse supérieure à 4 (sur 5)
4. Inclusion des entreprises non conformes aux principes du Pacte Mondial des Nations Unies (UNGC)
5. Inclusion des entreprises impliquées à plus de 0 % dans les activités suivantes :
  - a. Fabrication de produits à base de tabac
  - b. Armes controversées
  - c. Armes à feu civiles de petit calibre
  - d. Principaux composants des armes légères
6. Inclusion des entreprises impliquées à au moins 5 % dans les activités suivantes :
  - a. Extraction de charbon
  - b. Production d'électricité à base de charbon

Par le biais de ses politiques de sélection ESG et de vote par procuration, le Compartiment prend en compte plusieurs indicateurs de principe défavorables, comme les questions sociales et de droit du travail, le respect des droits de l'homme, la lutte contre la corruption et la lutte contre les pots-de-vin.

Les questions de gouvernance sont prises en compte dans la sélection des normes mondiales de Sustainalytics, qui se fonde sur les principes du Pacte mondial des Nations unies, les principes directeurs de l'OCDE à l'intention des entreprises multinationales, les indices de la gouvernance mondiale et les normes ou initiatives sectorielles. Les facteurs de gouvernance comme l'évasion/la fraude fiscale, les irrégularités comptables et la fraude comptable, le lobbying et la politique publique, les délits d'initiés, la corruption, le bien-être animal, la propriété intellectuelle, la résilience, la rémunération, les litiges et les droits des actionnaires, la composition du Conseil d'administration et d'autres critères de gouvernance d'entreprise et critères d'éthique d'entreprise font partie du filtrage des controverses intégré dans l'indice sous-jacent du fonds. Les facteurs de gouvernance font également partie de la cote globale de risque ESG, qui est utilisé dans la sélection de l'indice.

Voting is delegated to an independent third-party proxy voting specialist, Glass Lewis & Co., LLC.,. Glass Lewis determines the voting approach based on its assessment of the voting proposals and the alignment with the voting policy. VanEck is periodically informed on the activities and has access to an online platform where the information on the proxy voting, policy implementation, recordkeeping and reporting can be found.

## **(h) Data sources and processing**

### *The data sources used*

- Institutional Shareholder ServicesISS;
- Glass Lewis data related to voting activities.

The index provider and voting service provider may use their own additional data sources.

### *The measures taken to ensure data quality*

The mentioned data sources are used by VanEck and/or its index provider and service provider. VanEck does not receive most of the data directly from data providers and therefore has not taken measures to ensure data quality for the data which VanEck does not directly receive from data providers. For the data which VanEck does use directly from data providers, it uses a reporting service tool where data quality measures are integrated into. It is of course relevant that the data used by the index provider and service provider is of sufficient quality. The index provider and service provider have set up their internal processes to do so. Data quality is a component of the selection process of the index provider

### *How data are processed*

VanEck processes a limited amount of data on its own for the Sub-fund. Data from data providers or the index provider is processed to measure the Sub-fund's environmental and social characteristics based on the Sub-fund's investments as per the end of the year. VanEck is periodically informed on the index construction, implementation, results and progress of the voting activities.

### *The proportion of data that are estimated*

VanEck does not estimate data, but cannot rule out that the index provider or service provider does estimate data and/or use data provider which estimate data. Although reported data is preferred, missing information is often supplemented with estimated data by the data providers. For more information on how this exactly is determined, we refer to the website of the mentioned data providers, index provider and service provider.

## **(i) Limitations to methodologies and data**

VanEck recognizes the following limitations to methodologies and data:

1. Lack of reported data  
In order to attain the environmental and social characteristics, data from external data providers is used by the index provider, VanEck and/or the service provider. Data providers retrieve data from company reports (such as annual reports). Not all companies report the data. Missing data is sometimes estimated by data providers and at times there is no data coverage when it is not possible to estimate the data. This means that in not all cases reported data is present to determine whether the promoted characteristics are attained. By means of choosing a reputable data provider, the risk of erroneous estimates is mitigated.
2. Actualisation of data

The index provider rebalances the index on a periodic basis. It is possible that the Sub-fund's investments in between the rebalancing moments do not comply with the promoted characteristics.

#### **(j) Due Diligence**

VanEck does not select investments but uses indices which are constructed by index providers. As described in the monitoring section, VanEck replicates the index and this is monitored by the Portfolio Management Team and the Legal and Compliance Team. VanEck has a due diligence process on the selection of index providers and service providers. The board of VanEck decides on the index selection and appointment of service providers which is prepared by the Portfolio Management Team. VanEck is responsible for monitoring the replication of the index and the service provider.

VanEck's approach is to achieve and maintain the highest standards of integrity, reporting and internal control on all relevant environmental, social, and governance (ESG) matters, sustainability factors in its policies, practices, operational set-up and selection and monitoring of investments as well as identification and mitigation of ESG related risks. A more detailed description on the due diligence that VanEck carries out is available in the ESG Due Diligence Policy, which can be found at the following link: [Policies & Procedures | VanEck](#).

#### **(k) Engagement policies**

A third-party engagement specialist - Glass Lewis Europe Limited - for the passive equity funds managed by VanEck Asset Management B.V. has been engaged. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities. In addition, the VanEck Shareholder Engagement Policy can be found [here](#).

#### **(l) Designated reference benchmark**

As a passive investments strategy, the Sub-fund has designated the Morningstar® Developed Markets Large Cap Dividend Leaders Screened Select Index<sup>SM</sup> as reference benchmark to meet the environmental and social characteristics that it promotes.

Sustainability factors are considered as part of screenings that are included in the reference benchmark and assessed at any rebalancing of the underlying Index. By means of controversy and cluster munitions screening, the Sub-fund takes the principal adverse impacts on sustainability factors relating to UNGC violations into account.
