

VanEck Europe Capital Markets

The VanEck Europe Capital Markets team recognizes the importance of efficient, cost-effective trade execution, which can influence the decision to invest in a specific Exchange Traded Product (ETP). We are committed to supporting our investors with any operational queries they may have regarding the buying or selling of VanEck's ETPs listed in Europe.

Active Engagement for Seamless Operations

We take an active approach, not just monitoring liquidity and pricing, but also continuously engaging with Authorised Participants (APs) and liquidity providers. This interaction is aimed at maintaining a robust and responsive market environment for our products.

Market Making

Flow Traders B.V. acts as the primary market maker across all our products. BNP Paribas serves as an additional market maker for our equity ETFs. GHCO and Jane Street support liquidity provision for selected products where additional depth is required, while

Société Générale acts as market maker for specific distribution channels.

Beyond our contractual market makers, a broad network of authorised participants (APs) is actively involved in trading our products. A full overview of these APs can be found on the following page.

Enhanced Decision-Making with Pre-Trade Analysis

Pre-trade analysis is available upon request to help ensure you are equipped with the right information at the right time before accessing the market. We focus on offering our insights for your consideration in the decision-making process.

Here for Your Queries

Trading questions are inevitable, and we are here to help address them. Whether you require detailed guidance or quick clarifications, don't hesitate to reach out. Our Capital Markets team is prepared and eager to assist, aiming to support a more informed trading experience.
