The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance may be lower or higher than performance data quoted.

The "Net Asset Value" (NAV) of a Fund is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. Investors should not expect to buy or sell shares at NAV.

Calendar Year Returns (%)

	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025

The table presents past performance which is no guarantee of future results and which may be lower or higher than current performance. Returns reflect temporary contractual fee waivers and/or expense reimbursements. Had the Fund incurred all expenses and fees, investment returns would have been reduced. Investment returns and Fund share values will fluctuate so that investors' shares, when redeemed, may be worth more or less than their original cost. Fund returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV.
