## Fund Description

VanEck Vectors Morningstar Wide Moat ETF (MOAT<sup>®</sup>) seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of the Morningstar<sup>®</sup> Wide Moat Focus Index<sup>SM</sup> (MWMFTR), which is intended to track the overall performance of attractively priced companies with sustainable competitive advantages according to Morningstar's equity research team.

## Growth of Hypothetical \$10,000 Investment

This graph illustrates a hypothetical \$10,000 investment in the ETF invested at NAV at the Fund's inception. Returns reflect capital appreciation and the reinvestment of dividends and capital gains, if any, as well as all fees and expenses. The Index is unmanaged and includes the reinvestment of all dividends, but does not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the ETF. An index's performance is not illustrative of the Fund's performance. Indices are not securities in which investments can be made. Results reflect past performance and do not guarantee future results.

In the absence of temporary expense waivers or reimbursements, the 30-Day SEC Yield for VanEck Vectors Morningstar Wide Moat ETF would have been 0.98% on 04/30/17. Effective June 20, 2016, Morningstar implemented several changes to the Morningstar Wide Moat Focus Index construction rules. Among other changes, the index increased its constituent count from 20 stocks to at least 40 stocks and modified its rebalance and reconstitution methodology. These changes may result in more diversified exposure, lower turnover, and longer holding periods for index constituents than under the rules in effect prior to this date. Past performance is no guarantee of future results.

Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Fund returns reflect dividends and capital gains distributions. Net asset value (NAV) per share is calculated by subtracting total liabilities from the total assets, then dividing by the number of shares outstanding. Share price is the last price at which shares were traded on the Fund's primary listing exchange. Performance current to the most recent month end is available by calling 800.826.2333 or by visiting [vaneck.com](http://vaneck.com). Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses. You cannot invest directly in an Index.
