What is this Product?

Type:	<p>The Product is a passively managed UCITS ETF of VanEck UCITS ETFs plc, an umbrella fund structure comprising different sub-funds. Under Irish law, VanEck UCITS ETFs plc has segregated liability between its sub-funds. VanEck UCITS ETFs plc does currently not offer an exchange of shares for shares of another sub-fund. The shares are admitted for trading on various stock exchanges and can be traded on the secondary market. The price of the shares offered on the secondary market may deviate from the net asset value of the shares.</p>
Term:	<p>No fixed term. We are entitled to terminate the management of the Product by giving at least one month notice to investors as published at least on our website.</p>
Objective:	<p>The Product's investment objective is to replicate the price and the performance, before fees and expenses, of the MarketVector™ Global Defense Industry Index (the "Index").</p> <p>In order to seek to achieve its investment objective, the Manufacturer will normally use a replication strategy by investing directly in the underlying equity securities of the Index being the equity stocks, American depository receipts (ADRs), and global depository receipts (GDRs) that consists of the component securities of the Index. Such equity securities must be issued by companies listed or traded on the Markets referred to in Appendix II of the Prospectus who derive 50% (25% for current components) of their revenues from the military or defense industries (including related national/federal governmental departments) in relation to products and services as further described in the Prospectus.</p> <p>For the avoidance of doubt, where the Index already holds such equity securities, the Index will seek to remove the security when the percentage of revenue drops below 25% of the relevant companies revenues.</p> <p>Where it is not practical or cost efficient for the Product to fully replicate the Index, the Manufacturer may utilise an optimized sampling methodology.</p> <p>The Product may invest more than 20% of its Net Asset Value in emerging markets.</p> <p>The Product may also (or alternatively) invest in financial derivative instruments (FDIs) which relate to the Index or constituents of the Index. The FDIs which the Product may use are futures, options (puts and calls), swaps (including equity swaps and swaps on the Index), currency forwards and non-deliverable forwards (a forward contract that does not require settlement on maturity) (NDFs).</p> <p>The Product may also invest in ancillary liquid assets and money market instruments which may include bank deposits, depository receipts, certificates of deposit, fixed or floating rate instruments (treasury bills), commercial paper, floating rate notes and freely transferable promissory notes. The ancillary liquid assets, money market instruments and FDI (other than permitted unlisted investments) will be listed or traded on the Markets referred to in Appendix II of the Prospectus. Investment in ancillary liquid assets and money market instruments may be utilised in a variety of circumstances, including but not limited to, situations such as managing total exposure to cash and borrowing on a short-term basis and in anticipation of participation in a rights offering.</p> <p>The Product may not invest more than 10% of its Net Asset Value in open-ended collective investment schemes.</p> <p>Furthermore, the Product may not invest less than 51% of its Net Asset Value in equity securities which constitute "equity participation" within the meaning of section 2, Article 8 of the German Investment Tax Act.</p> <p>The Product, using a "passive" or indexing investment approach, attempts to approximate the investment performance of the Index by investing in a portfolio of securities that generally replicates the Index. The Investment Manager will regularly monitor the Product's tracking accuracy. The annualised tracking error envisaged is not anticipated to exceed 0.2% under normal market conditions.</p> <p>Dealing Frequency: You may purchase and redeem shares in this Product on a daily basis and in accordance with the relevant notice period.</p> <ul style="list-style-type: none"> • Product's base currency: U.S. Dollar • Distribution policy: Income accumulated <p>The Depositary of VanEck UCITS ETFs plc is State Street Custodial Services (Ireland) Limited.</p> <p>The return of the Product is directly related to the return of the underlying assets minus the costs associated with the Product. If the performance of the underlying assets decreases, the performance of the Product will also decrease. There is no capital protection against Market Risk.</p>
Intended Retail Investor:	<p>This Product is intended for all kinds of investors who are looking for capital growth and/or optimization and have an investment horizon which is at least equal to the recommended holding period shown below. Only those investors who have the ability to make an informed decision based on sufficient knowledge and understanding of the Product and the market and the ability to bear a loss up to a total loss of their investment should consider investing in the Product. What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you. We have classified this Product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high. Furthermore, poor market conditions will likely impact the capacity of Manufacturer to pay you. **Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.** This Product does not include any protection from future market performance so you could lose some or all of your investment. The following risk may be materially relevant to the Product but may not be adequately captured by the summary risk indicator and may cause additional loss: Concentration Risk and Liquidity Risk as further described in the Prospectus.

Performance scenarios and the assumptions made to produce them:

What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 years.			
Example Investment: USD 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	USD 960	USD 1,130
	Average return each year	-90.37 %	-35.37 %
Unfavourable	What you might get back after costs	USD 6,030	USD 8,300
	Average return each year	-39.68 %	-3.66 %
Moderate	What you might get back after costs	USD 10,990	USD 12,650
	Average return each year	9.94 %	4.82 %
Favourable	What you might get back after costs	USD 16,520	USD 22,530
	Average return each year	65.25 %	17.64 %

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between October 2017 and October 2022. The moderate scenario occurred for an investment between May 2019 and May 2024. The favourable scenario occurred for an investment between February 2015 and January 2020. Your maximum loss would be that you will lose all your investment.

What happens if VanEck Asset Management B.V. is unable to pay out?

The assets of the Product are held in safekeeping by the Depositary and are separate assets to those of the Manufacturer. Therefore in the event of the insolvency of the Manufacturer, the Products assets will not be affected. In the event of the Depositary's insolvency, or someone acting on its behalf, the Product may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Product. The Depositary will also be liable to the Product and the investors for any loss arising from, among other things, its negligence or intentional failure properly to fulfil its obligations (subject to certain limitations). The Product's investments do not fall within the scope of any guarantee or compensation scheme.

What are the costs?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- USD 10 000 is invested

Cost over time		
	If you exit after 1 year	If you exit after 5 years
Total costs	USD 58	USD 285
Annual cost impact (*)	0.6 %	0.6 %
(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.4 % before costs and 4.8 % after costs. We may share part of the costs with the person selling you the Product to cover the services they provide to you. They will inform you of the amount.		

Composition of Costs		
	One-off costs upon entry or exit	If you exit after 1 year
