Fund Description

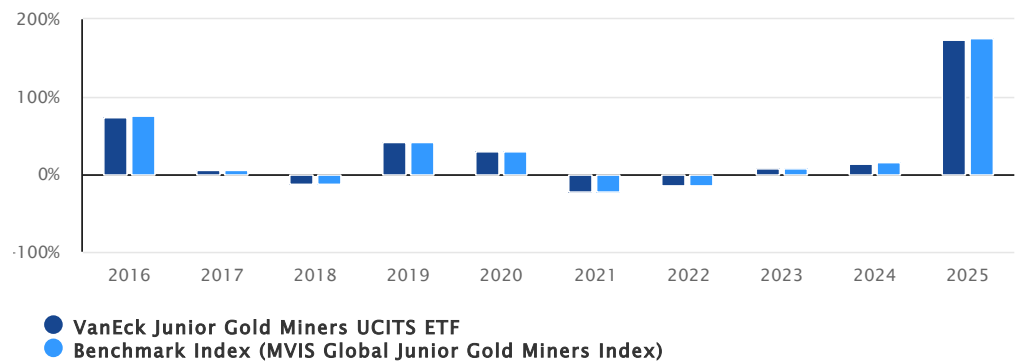

VanEck Junior Gold Miners UCITS ETF is a UCITS compliant exchange-traded fund (ETF) that invests in a portfolio of equity securities. The ETF aims to provide investment returns that closely track the performance of the MVIS Global Junior Gold Miners Index (MVGDXJTR).

MVIS Global Junior Gold Miners Index, a pure-play, global index that combines blue-chip and benchmark characteristics, is especially designed to underlie ETFs. The index tracks the performance of the most liquid junior companies in the global gold and silver mining industry that generate or intend to generate at least 50% of their revenues from this sector. The index is reviewed quarterly based on a strictly rules-based methodology which applies most stringent size and liquidity requirements. Please consult www.marketvector.com for index data and detailed methodology.
