[‡] Excludes CBON, EMLC, EMAG, IHY, and PFXF

* Potential income distribution for excise purposes

The majority, and possibly all, of these distributions will be paid out of net investment income earned by the Funds, if applicable. Some portion, or all of the distribution may comprise capital gains or return of capital.

The amount of distributions paid by each fund may vary from time to time. Past amounts of distributions are no guarantee of future distributions payment amounts.

VanEck Vectors does not provide legal, tax or accounting advice. Any statement contained in this communication concerning U.S. tax matters is not intended or written to be used, and cannot be used, for the purpose of avoiding penalties imposed on the relevant taxpayer. Shareholders or potential shareholders of the VanEck Vectors ETFs should obtain their own independent tax advice based on their particular circumstances.

The net asset value (NAV) of an ETF is determined at the close of each business day, and represents the dollar value of one share of the ETF; it is calculated by taking the total assets of an ETF subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as an ETF's intraday trading value. Investors should not expect to buy or sell shares at NAV. Total returns are based upon closing "market price" (price) of the ETF on the dates listed.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Shares may trade at a premium or discount to their NAV in the secondary market. You will incur brokerage expenses when trading Fund shares in the secondary market.

Investors may call 800.826.2333 or visit vaneck.com for a free prospectus and summary prospectus. Investing involves risk, including possible loss of principal. Bonds and bond funds will decrease in value as interest rates rise. An investor should consider the investment objective, risks, and charges and expenses of VanEck Vectors ETFs carefully before investing. The prospectus and summary prospectus contains this and other information. Please read the prospectus and summary prospectus carefully before investing.
