If you are subject to federal income tax, the liquidation of the Fund will result in one or more taxable events for you. A sale or exchange of Fund shares prior to the liquidation (if possible) will generally give rise to a capital gain or loss to you for federal income tax purposes. In connection with the liquidation, the Fund may declare taxable distributions of its investment income and/or taxable distributions of its net capital gain. Any liquidation proceeds paid to you should generally be treated as received by you in exchange for your shares and will therefore generally give rise to a capital gain or loss depending on your tax basis. However, you may not be able to recognize a loss until you receive the final distribution in a series of liquidating distributions. Please consult your personal tax advisor about the potential tax consequences.

The final tax treatment of these dividends will be reported to shareholders on their 1099-DIV form, which are mailed after the close of each fiscal year. The amount of dividends paid by each ETF may vary from time to time. Past amounts of dividends are no guarantee of future dividend payment amounts.
