## **Empowering Investors with Impactful Opportunities Since 1955**

For nearly 70 years, VanEck has sought to identify trends—economic, technological, political and social—that shape financial markets. We consider whether these create opportunities, perhaps even new asset classes, or present potential risks to existing portfolios.

Through intelligently designed, competitively priced solutions we empower investors to gain exposure effectively.

## 1955

Post WWII recovery creates opportunities with international companies in Europe and Asia

## 1968

In anticipation of inflation, concentrated investment in gold

## 1993

Prominence of China puts focus on rising influence of emerging markets

## 2006

Investor desire for liquidity, diversification, efficiency leads to ETF industry expansion

Data as of March 31, 2024.

## 2012

Launch wide moat equity strategy focused on companies with sustainable competitive advantages

#### 2017

VanEck Bitcoin Trust ("HODL") and VanEck Merk Gold Trust ("OUNZ"): This material must be preceded or accompanied by a prospectus (visit for HODL), (visit for OUNZ). Before investing, you should carefully consider the Trusts' investment objectives, risks, charges and expenses. Please read the prospectuses carefully before you invest.

A Trust is not an investment company registered under the Investment Company Act of 1940 ("1940 Act") or a commodity pool for the purposes of the Commodity Exchange Act ("CEA"). Shares of the a Trust are not subject to the same regulatory requirements as mutual funds. As a result, shareholders of a Trust do not have the protections associated with ownership of shares in an investment company registered under the 1940 Act or the protections afforded by the CEA.

The Sponsor for HODL is VanEck Digital Assets, LLC. The Sponsor for OUNZ is Merk Investments, LLC. The Marketing Agent for HODL and OUNZ is Van Eck Securities Corporation.

The principal risks of investing in VanEck ETFs and mutual funds include, but are not limited to, sector, market, economic, political, foreign currency, world event, index tracking, active management, social media analytics, derivatives, blockchain, commodities and non-diversification risks, as well as fluctuations in net asset value and the risks associated with investing in less developed capital markets. VanEck ETFs may also be subject to authorized participant concentration, no guarantee of active trading market, trading issues, passive management, fund shares trading, premium/discount risk and liquidity of fund shares risks. VanEck ETFs or mutual funds may loan their securities, which may subject them to additional credit and counterparty risk. ETFs or mutual funds that invest in high-yield securities are subject to subject to risks associated with investing in high-yield securities; which include a greater risk of loss of income and principal than funds holding higher-rated securities; concentration risk; credit risk; hedging risk; interest rate risk; and short sale risk. ETFs or mutual funds that invest in companies with small capitalizations are subject to elevated risks, which include, among others, greater volatility, lower trading volume and less liquidity than larger companies. Please see the prospectus of each Fund for more complete information regarding each Fund's specific risks.

Investing involves substantial risk and high volatility, including possible loss of principal. An investor should consider the investment objective, risks, charges and expenses of VanEck Funds and VanEck ETFs carefully before investing.
